**MOVIE THEATER
PROJECTION SCREEN
GUARD**

DESCRIPTION

The CHASE SECURITY Movie Theater Projection Screen Guard has been created especially for use in gymnasiums or other areas where a significant amount of high impact may occur. This solid steel construction has the dual purpose of providing a secure storage area for the screen when not in use, while also creating a dark, inconspicuous covering for the motorized mechanisms used to raise or lower the projection screen.

Our projection screen covers can be custom designed to accommodate any screen size both great or small.

For over 30 years Chase custom metal products have been manufactured in a variety of sizes, styles and finishes, and sold to OEM accounts and distribution.

FEATURES

- ◆ Constructed of quality 14-gauge steel.
- ◆ Welded at all sides with reinforcement for a solid, single unit construction.
- ◆ Finish: Black Epoxy coating.
- ◆ Dimensions O.D. 207" x 17" x 12" deep.
- ◆ Chase custom designs and builds to your specifications.

Chase Security Systems, Inc., an MBE Enterprise, draws from over 30 years of experience selling to the Fire, Security, Computer, Sound, Food Processing, Forestry, Communications and Telecommunications industries. Many of our signature products are now being produced by other manufacturers but our custom metal boxes are still the product of choice for their strength.
