HORN / STROBE BACK BOX WITH SKIRT *For Edwards Systems Technology Multi-CD Horn/Strobes*

DESCRIPTION

The CHASE SECURITY BACK BOX WITH SKIRT has been designed to make installation fast and simple. The two part design reduces installation cost and labor as well as making it easy to service once installed. Boxes designed for electrical box installations with exposed conduit pipe. It is designed for Prisons, HUD Projects, Universities, Hotels, Parks, Schools, Hospitals, and other public locations where both functionality and aesthetics count.

For over 30 years Chase custom metal products have been manufactured in a variety of sizes, styles and finishes, and sold to OEM accounts and distribution.

Can be used in a variety of applications.
