PULL STATION / SWITCH / THERMOSTAT GUARD

DESCRIPTION

The CHASE SECURITY PERFORATED METAL GUARD has been designed to protect pull stations, switches, thermostats, and other devices against vandalism or accidental damage. It is designed for Prisons, HUD Projects, Universities, Hotels, Parks, Schools, Hospitals, and other public locations where both functionality and aesthetics count.

Chase one-piece construction perforated metal guard provides for ease of installation and maintenance of equipment once installed. For over 30 years Chase perforated metal products have been manufactured in a variety of sizes, styles and finishes, and sold to OEM accounts and distribution.

Can be used in a variety of applications.

FEATURES

- ◆ Constructed of quality 16-gauge perforated steel with 3/16" diameter on 1/4" staggered centers.
- ◆ Welded to a hinged mounting plate for a solid installation.
- ◆ Finish: white epoxy coating.
- ◆ Dimensions I.D. 6" x 5" x 2" deep.
- ◆ Easy to install.
- ◆ Lockable tamper-proof design with removable key.
- ◆ Chase custom designs and builds to your specifications.

Chase Security Systems, Inc., an MBE Enterprise, draws from over 30 years of experience selling to the Fire, Security, Computer, Sound, Food Processing, Forestry, Communications and Telecommunications industries. Many of our signature products are now being produced by other manufacturers but our perforated metal enclosures are still the product of choice for their strength.
